

Easy Pickin's 2019 CSA Weekly Share Contents

NOTES:

- * Unless otherwise noted, HALF shares get all the same items as FULLs, but in smaller quantities.
- * Where 2 or 3 items are listed as "&/or," it means that the item packed in the share varied according to what was available for harvest, usually by pick-up day..
- * **Tomatoes:** Shares got mostly round red "salad" tomatoes, & occasionally yellow/gold salad tomatoes or San Marzano plum tomatoes.
- * **Lettuce:** usually assorted varieties each week, depending on what was available for picking -- including red & green leaf lettuce, Romaine, and Boston / Bibb / Buttercrunch-Butterhead-Butterleaf types.
- * **Fruit:** is the most weather-dependent & climate-sensitive component of shares. When berries are in season, our ability to provide them is affected by rain - you can't pick berries in wet weather, and they are very perishable so you can't pick them days ahead.

Week 1: 6/10

- * Bunch Swiss chard
- * Bunch kale (mostly curly)
- * Bunch multi-color Easter egg radishes or sweet white Hakurei turnips with greens (depending on day)
- * Green onions (scallions)
